L'eleganza dei dettagli
Elegance of the details

Le serie di serrature Elité e Luxury, sono caratterizzate da lavorazioni artigianali proprie dei Maestri Incisori che ancor oggi tramandano di padre in figlio l'antica arte del bulino e da secoli sapientemente impreziosiscono e rendono unici prodotti come armi e oggetti di oreficeria destinati ad appassionati e collezionisti di tutto il mondo.

Le diverse ornamentazioni dei raffinati motivi Liberty e Arabic vengono evidenziate dalle varie finiture della piastra incisa, ma trovano la loro massima esaltazione nella serie Luxury dove la precisa mano dell'artigiano posa nell'incisione foglie d'oro nei vari colori che trasformano con la personalità propria dell'artista, un oggetto "comune" ed inusuale in un'autentica opera d'arte.

www.sabserrature.it

Locks variety Elité and Luxury are characterized from artisan working typical of Masters Chisellers that for ages enriched and made unique products like hunting guns or jeweller's wares destined worldwide collectors.

Today the fine art of engraving is still transmitted from father to son.

Refined ornaments of Liberty and Arabic style are marked from the several finishings of the brass plate, but find the maximum exaltation in range Luxury where the precise artisan's silky hands lovingly place gold powder in different colours that transform a "standard" and "unusual" product in a really "piece of art".
