Quick-FitPlus

HOPPE Quick-FitPlus Less is more

HOPPE Quick-FitPlus is the logical further development of the tried and tested HOPPE Quick-Fit connection.

This technology not only allows simple installation, without the need for screws, of door handles, but also of round flat roses. The new HOPPE Quick-FitPlus sets are making an impression with their virtually flush rose design.

Simple fitting

Aesthetically pleasing flat roses and door handles using the Quick-Fit connection are installed on the door in just a few steps: The handle roses with supporting lugs are affixed to the prepared door and the door handles are simply put together. The full set is therefore installed with precision in just a few seconds without any screws – even in renovations.

Attractive design

The new Quick-FitPlus sets are a perfect match for current design trends. The stainless steel roses are just 2 mm thick and virtually flush with the door leaf.

Depending on the door preparation, they can be used with or without escutcheons.

You can find HOPPE Quick-FitPlus films at www.hoppe.com. If you have any questions please get in touch with your HOPPE contact person.

Important:

HOPPE Quick-Fit products should not be combined with spindles from other manufacturers!

Door preparation

This solution is for use on standard doors with standard locks. No special door preparation is needed.
