

## argenta® pivotica® - Invisible pivot hinge

Argenta introduces the *argenta® pivotica®*, a new, minimalistic and invisible pivot hinge with several unique characteristics.

Thanks to its compact size the *pivotica®* is not only easy to mount in the door, the pivot hinge can also be installed in pivoting floor-to-ceiling-height doors.

The innovative pivot hinge even allows for the pivot point on the door to be chosen freely (at a minimum of 40 mm from the side of the door); this way, wide doors can for instance rotate from the middle. The *pivotica®* is suitable for both left and right doors.

Thanks to the *argenta® pivotica®* architects can use spaces and walls creatively, seeing how the pivot hinge does not require a door frame and the door can be aligned perfectly with the wall.

All parts of this pivot hinge are rust-resistant. The *pivotica®* is suitable for indoor use of both modern residential buildings as well as public buildings and offices.

The *pivotica®* is preferably used in combination with the *magnotica®*, a contactless doormagnet.

*Finish: brushed stainless steel*

### Advantages

- Invisible
- Suitable for floor-to-ceiling-height doors
- Invisible door closer
- Easy installation
- Free choice of rotating position (hinge point)
- Adjustable outlining (straight outlining)
- Fixed settings at  $-90^\circ / 0^\circ / 90^\circ$
- Child-friendly (easy to open)
- Pivot system to be mounted in the doorpanel and not (as usual) in the floor or ceiling

Max. door weight	45 kg
Max. door width	1500 mm
Min. door thickness	40 mm
