MAGNOTICA PRO SE

ADJUSTABLE STRIKE PLATE PRO E

ADJUSTABLE STRIKE PLATE PRO SE

# MAGNOTICA PRO E & SE

The magnetic snapper can be used both vertically (pull-side of the door leaf) and horizontally (top of the door leaf) and can be used in any type of door frame. For door heights of more than 2315 mm, we recommend installing at least 2 sets of magnetica pro E or SE.

## Magnetica pro E

The argenta magnetica pro E is a magnetic and contactless door catch that keeps interior doors in a closed position without the need for a door handle or lock. Because there are no moving parts, a door can be closed and opened completely silently. The rounded cover plates are made of zamac. Magnetica pro E is available in black, matt chrome, white and classic bronze.

Finish	Reference
magnetica pro E matte chrome	70001094
magnetica pro E black	70001093
magnetica pro E white	70001092
magnetica pro E classic bronze	70001104

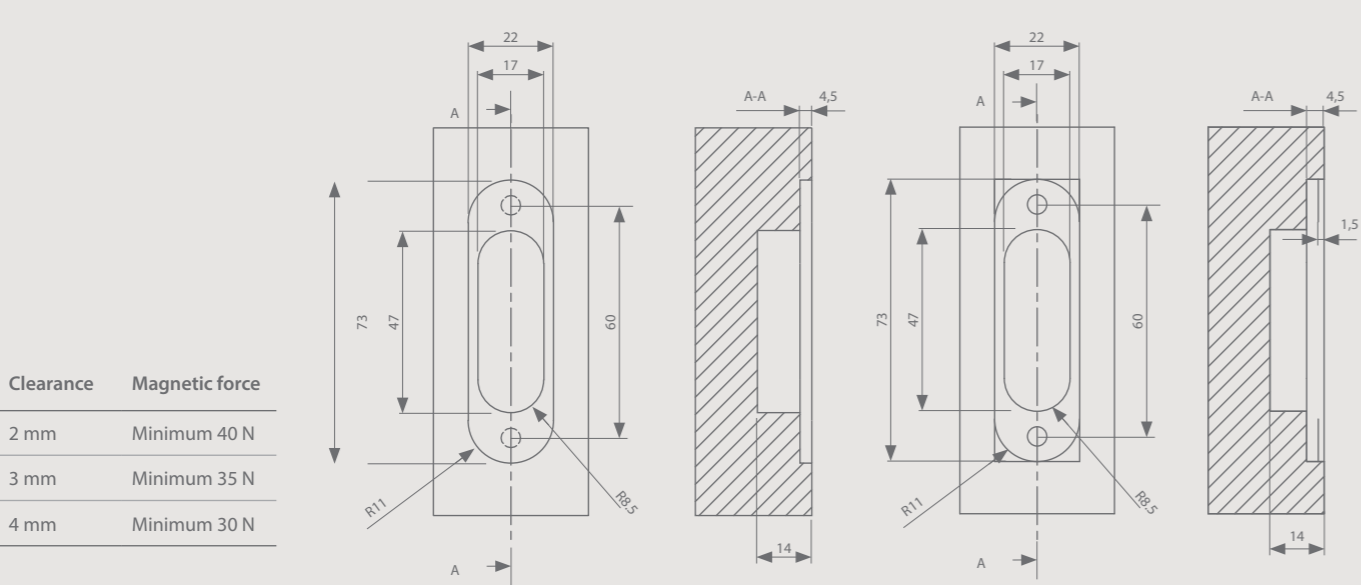

## Magnetica pro SE

The magnetica pro SE is the perfect addition to steel and aluminum profile doors. This variant is characterised by a rectangular cover plate made of zamac, also available in black and white finishes.

Finish	Reference
magnetica pro SE black	70001096
magnetica pro SE white	70001095

# ADJUSTABLE STRIKE PLATE PRO E & SE

## Adjustable strike plate pro E

With an adjustment range of 6 mm, the new adjustable striking plate pro E is the perfect solution to compensate for gaps. In addition, a zamac cover cap covers the screws. The adjustable striking plate pro E is available in black, matt chrome, white and classic bronze and can be combined with magnetic (latch) locks with one, magnetic, latch only with maximum dimensions of 37mm high and 10mm wide (such as AGB Polaris magnetic locks and the KfV 116 magnetic latch lock).

Finish	Reference
adjustable strike plate pro E matte chrome	22099959
adjustable strike plate pro E black	22099958
adjustable strike plate pro E white	22099957
adjustable strike plate pro E classic bronze	22099947

## Adjustable strike plate pro SE

The adjustable striking plate pro SE is the ideal addition for steel and aluminum door frames. This variant includes a rectangular cover plate made of zamac, also in in black and white finishes.
